PERFECT FOR

Kitchens & Bathrooms
Cabinetry
Architectural Projects
Commercial Design
Furniture Manufacture
Retail Space
Signage
Exhibitions & Displays
Wardrobes/Closets
RV & Marine
Feature Wall & Ceiling Panels
Acoustic Timber Walls & Ceilings
Amazing results

Striplox makes every unique joining application streamlined and concealed for use on solid timber, MDF, composite panels, aluminium features, balsa wood plus more. Striplox is easy to install, adjustable, highly customisable and made from environmentally friendly, durable, heat stabilized glass reinforced nylon. With unparalleled strength Striplox will meet all required needs in numerous applications.

Aesthetically, Striplox replaces visible screws, brackets, fittings, connectors, latches, cam and dowels, mounting blocks and other methods providing leading edge design solutions.

Striplox can be surface or rebate mounted in vertical, horizontal, under mount or top mount positions.

- Simple
- Strong
- Secure

Striplox Pro 23

The Striplox Pro 23 connectors have been designed for literally hundreds of uses, from large scale architectural projects through to custom design features. The Striplox Pro 23 is ideal for installing modern timber battens, hanging cabinets, floating shelves, bookcases, artwork, frames, mirrors and feature panels. It achieves the results you want with bespoke furniture with its narrow profile for tidy concealment. You will be amazed with its strength, versatility and varied range of uses.

Striplox Pro 55

The Striplox Pro 55 connectors are the same design as the Pro 23 but with a larger size for extra heavy duty requirements. With a larger load capacity, you can achieve leading edge designs with architectural projects, furniture designs, exhibition displays through to bathroom, kitchen and office builds and installations. Create unique key design elements such as feature batten ceiling designs, mantle piece installations plus numerous structural innovations. The reusable capabilities of the Pro 55 provide endless possibilities.

www.striplox.com
Striplox Clip 50

The Striplox Clip 50 is designed with some smaller precise applications in mind, this versatile and strong connecting system can be used in the tightest of places quickly and efficiently in commercial, architectural or domestic applications. The Striplox Clip 50 is also perfect for hanging wall panels and offers an advantage when being used on a less than perfectly square wall with its unique locking system and the option of permanent or reusable assembly. The locking key can also swivel for easy positioning.

Striplox 90D 98 (4”)
Available in Black or White

The Striplox 90D 98 is an innovative engineered solution designed to quickly and easily connect any right angle joints. It is ideal for common joints including mitre joints, butt joints, T joints, square joints, frame joints and flush joints.

Striplox 90D 51 (2”)

The Striplox 90D 51 (2”) smaller compact 90° joining solution has advantages in application for fast and easy assembly of all 90° joints, including butt joints, T joints or mitre joints. Offering cost efficiencies during production this surface mounted 90D 51 (2”) is ideal for use in flat pack furniture, commerical applications, RV and marine uses. The simple one movement action to lock tightly ensures safe, reversible 90° joins in seconds.

Striplox 180D

The Striplox 180D is incredibly strong and easy to use in one action. Imagine adding tables together in seconds at conference venues and restaurants! It will join almost any 180 degree join in numerous applications. Create custom made boardroom, conference, kitchen and benchtop tables, workstations, retail fixtures and large scale exhibition displays. The Striplox 180D creates perfect paneling and signage and can be used on postform or solid materials.

Striplox Shelflox Extendable

The Striplox Shelflox is an ultra strong, fully concealed solution for fixing horizontal shelving or vertical panels. Adjustable to suit a variety of depths from 215mm (8.5”) to 600mm (23.6”), this strong and permanent solution allows for shelving to be quickly installed simply by sliding into the locked position. It has the added benefit of shelves being able to be positioned opposite each other horizontally with one single end panel saving substrate and transportation costs. It is suitable for all cabinets, furniture, closets and designed for a minimum of 16mm (5/8”) substrate either MDF, particle board or timber. No need for visible 32 system holes.

Striplox Megalox

The simple to use, ultra strong, Striplox Megalox is ideal for bench and table top installations of mitre join, T join or box joins. You can design office partitioning exactly to your unique specifications. The Striplox Megalox is the perfect solution for office, bathroom, furniture, toilet partitions and locker room installations and manufacturing. Benchtop Waterfalls and custom designed kitchen benches can be created with ease and no time delays waiting for glues to dry. The Striplox Megalox is a convenient (RTA) system that enables flat packing for easy transportation.
Striplox Mini 60

The Striplox Mini 60 connectors are an invisible joiner suited to everyday builds, custom cabinets, wood joints and anywhere else you commonly use biscuit joints, fasteners or cam and dowel products. The Striplox Mini 60 creates a tight, neat, fully concealed solution that can be a permanent or fully reusable joint, every time. The Mini 60 uses existing methods for installation with no specialised tools required, delivering a fast, strong assembly of components or panels.

Striplox Griplox No 20 Biscuit

The Striplox No 20 grip Biscuit makes the ‘doing’ a whole lot easier and enjoyable. Traditional wood biscuits lose their shape and swell up in atmospheric conditions, resulting in substrate blowout. The Striplox No 20 grip Biscuit is the new solution. It will never lose shape, and its innovative gripping spikes secure your project in place, providing a superior result every time. All you need is a hammer to knock it in saving time in clamping and eliminating the endless wait for glue to dry.

The Striplox Accessories range can be used with the range of innovative Striplox assembly solutions to save you time and money.

**Liquidlox Adhesive**
Liquidlox is a general purpose, middle viscosity, high strength fast cure adhesive compatible with all Striplox assembly products and a wide range of substrates.

**Striplox Cutters & Routers**
The Striplox Cutters and Routers produce an accurate and reliable positioning for the entire Striplox range. 7mm (Mini’s) & 10mm (Megalox & Shelflox Extendable) available.

**Striplox Mark-Out Template**
The Striplox Mark-Out Template speeds up the manufacturing processes by enabling the easy fitments of the Striplox range of joining solutions.

**Striplox Positioning Jigs**
The range of Striplox Jigs aid installation to save time during fitment by accurately marking fixing center points. For Pro 55, Pro 23 and Clip 50.

**Striplox Starter Kits**
Striplox starter kits are an ideal way of trialling the Striplox range. Available in 2 sizes:
- 43 pc kit with carry case
- 78 pc kit with carry case
The starter kits also include position jigs.

**CNC Data**
2D CAD Models available for download.
